H.B. Bolster, read, and adopted by the meeting with right berty good will:

Whereas, Great and weighty matters depend upon the issue of the election about to take place throughout the Empire State—matters which effect the interest and involve the Welfare of every citizen in an equal if not greater degree than was ever before presented to the consideration of intelligent Freene. We are now in the full fruition and enjoyment of all the blessings of Loco-Focoism; our Public Works and Improvements arrested in an unfinkhed state, and going to decay; our public credit impaired and private enterptise broken down and destroyed—all around is one cheerless waste of wide spread gloom and despondency—the merchant without a customer, the nucchanic without employment, the laborer without work, and his family without bread. This is our condition, and this is Loco-Focoism. On the other hand, the Whig policy is to complete our public works and render them productive, to restore our public credit, to revive trade, encourage our mechanics and manufactories—in short, to infuse lite and vigor into all branches of industry, to restore the powers and to kindie the energies of a now prosurate and suffering community.

Therefore, Resolvec, That in the coming election for State Officers, and for Members of our National and State Legislatures, a great and fearful responsibility which he comenly discharge by comir g early and willingly into the contest, determined never to lay aside his armor until the battle is fought and the victory wen.

Resolved, That in Luther Bradtsh, our candidate for Governor, we recognize men of large and enlightened views of State paley, from friends of the paley of the Eleventh Ward pledge our faithful, energetic and undivided efforts.

Resolved That as the present paralyzed and prostrate condition of every branch of industry has resulted from unwies and teckless Loco-Focolegistation, we call upon every mechanic and working man to weigh well and carefully consider his present condition and his future prospects; hearty good will:

On motion, the proceedings of this meeting be published. On motion the meeting adjourned. P. SNEDECOR, Chairman.

Resolved. That the great Whig party of the country stands where it did when General Harrison was nominated for the Presidency, maistaining the same principles, and looking forward to the same prospects. Treachery does not discourage us—apostacy cannot dampen our confidence in the ultimate success of our cause—for it is the cause of truth, libratic and our country. liberty, and our country. Resolved, That the nomination of HENRY CLAY for Presi-

deat of the United States, by the Whig Party, without the intervention of a National Convention, is an act of justice too long delayed to one whose services as an American too long delayed to one whose services as an American Statesman in the various situations to which he has been called through a long political career, have been unsurpassed and unequalled by any of his contemporaries, and that in pledging ourselves to his warm support, we cheerfully submit his claims to the people in contrast with those of John C. Calhoun, Martin Van Buren, or John Tyler.

Resolved, That in LUTHER BRADISH we recognize a sound Statesman, of high, honorable and liberal feelings, chosen by the Convention for the first office in the State, we are assured that his election will be to sustain its best interests.

of a few Leco-Foco Members, and the unwitting signature of John Tyler.

Resolved, That we consider the Compremise Act of 1833 forced upon the country by insperious necessity to avoid bloodshed, bavoc, and ruin, the worst of all calamities to us, the dissolution of the Union—that it was better to submit to temporary than to lasting evils—knowing that what Congress have power to make they have power to unmake.

Resolved, That the defalcations by officers of the City Government which have been lately developed, prove that there has been the grossest corruption as well as negligence in certain quarters, and it is indeed for the public interest that we now have men in the Common Council who will do their duty in bringing the iniquity to fight and the offendtheir duty in bringing the iniquity to fight and the offend-

We have the same detestation of Loco-Footom, whether it proceeds from Martin Van Buren, Ino. C. Calhom, or John Tyler, and will maintain the same opposition to a Sub-Treasury, whether it is called by the less offensive name of an Independent Treasury, or even that of a National Exchequer, satisfied that we are on the side of the Prierties of the People, the Protection of their Industry, and the accurity of their rights. We are where for years we have been, and intend to go 'the same old coon' still.
